From inside to the great outdoors, Transitions lenses sense how light changes—seamlessly adapting to the perfect tint from the moment you walk outside. When you return indoors, they seamlessly fade back to clear.

Every day, in every light condition, Transitions lenses let you see more comfortably and help reduce glare, eyestrain, and eye fatigue.

Plus, all Transitions lenses block 100% of UV rays and help protect against harmful blue light from digital devices, screens and especially bright sun.

#LiveTheGoodLight

When you enjoy light more comfortably, you enjoy life more richly.

Look inside to discover the right Transitions lens for you.

Ask your eyecare professional which Transitions' lenses are right for you.

**Transitions Signature**

**OUR FASTEST-ADAPTING AND MOST POPULAR LENSES**

Featuring exclusive Chroma7™ technology, Transitions Signature lenses seamlessly adapt to the perfect tint in every light.

- Clearest indoors
- Fast fade-back speed
- Suitable for any age, including children

**Transitions XTRActive**

**EXTRA PROTECTION FROM LIGHT EVERYWHERE YOU NEED IT**

Transitions XTRActive lenses provide extra protection from bright sun and harmful blue light outdoors, indoors, and even in the car.

- Extra dark outdoors to protect from brightest sun, even in the hottest conditions
- Hint of tint indoors helps protect from harsh indoor lighting
- Darkens behind the windshield of a car

**Transitions Vantage**

**LESS GLARE FOR CRISPER, SHARPER VISION**

Engineered with breakthrough technology, Transitions Vantage lenses seamlessly polarize as they adapt and darken.

- The only lens with variable polarization for crisper, sharper outdoor vision
- Adjusts to match level of outdoor glare

**Lens Colors:**
- Gray
- Brown
- Graphite Green
